

COMPANY PROFILE

Zararah Transporting & General Maint. Company is one of the leading general Transport companies specializing in General Transportation projects in United Arab Emirates. Zararah Transporting Company was founded in Abu Dhabi in the year 1976. Realizing the need for specialized transportation services in the oil and gas sector, industries and commercial establishments in U.A.E., the company has since then committed itself to support the oil and gas transportation requirement and has grown into leading contracting and transportation services. Zararah Transport has extended its services all over the Gulf region in the field of transporting of goods, equipment, fluid, fuel, aggregate, etc. Zararah has served the oil companies, Abu Dhabi Municipality and the Public Works Department in the U.A.E. We are associated with oil companies since 1979.

We are at present contractors for The Provision of Transfer and Supply of Fluids in ADCO Fields Contract No.15433.03 , Transportation of Drilling Equipments to Rigs ADCO Contract No.15194.01, Hire of Bull Dozers for Onshore Rigs NDC Cont.No.10168 and also for Abu Dhabi Gas development company (Al Hosn Gas)For Haulage of fluids services as per cont# AHG/2011.069/CT and Also For ADNOC FOD Cont.No.CSD/1007A For Transportation of Fuel To NDC Onshore Rigs

We have the vehicles and equipment for any type of land transportation and desert/remote transportation. We have executed similar work for various ADCO projects , ADNOC FOD, AND NDC projects in Abu Dhabi. We are capable to undertake any transportation project to our client's satisfaction anywhere in the Gulf Region and the Middle East.

OUR GOAL

The Transportation Division of Zararah General transport & Maint. Co. is in the business of providing specialized "off-road" and "off-highway" state-of-the-art oilfield related equipment to the U.A.E Oil and Gas Industry. We perform drill rig movement and relocation services which involve the hauling and rigging up of drilling rigs in challenging, desert terrain and extreme weather conditions. Customer transportation logistics are pre-planned for each and every job through a network of terminals strategically located in the areas best known for oil and gas exploration activity. We provide technologically advanced equipment and efficient operational tools to bring cost saving benefits to our customers. Our focus is to perform each and every job safely in order to exceed customer service excellence. Through upstream and downstream multi service capabilities, the Transportation Division OF Zararah Gen.transport & Maint. Co. is recognized as one of the best Transport services and equipment in the U.A.E.
